EXPERIENCE

DevOps Intern

CHI Networks

Feb. 2025 – Present

On-Site, Delhi, India

- Built Jenkins CI/CD pipelines for Django and React applications, reducing full-stack deployment time to under 90 seconds across production and development environments
- Automated Linux server provisioning with Ansible, cutting new server setup time to under 6 minutes; managed roles for Gunicorn, Nginx, Python 3.12, and ODBC Driver 18
- Deployed and containerized 10+ self-hosted services using Docker and Docker Compose, including Sentry, Grafana, Wazuh, and OpenVAS/Greenbone
- Developed FastAPI-based REST APIs to automate OpenVAS vulnerability scan management, report retrieval, and data processing; integrated with Wazuh SIEM for security event correlation
- Configured and provisioned network switches, handling VLAN setup and inter-VLAN routing across office infrastructure
- Built n8n automation workflows including an end-to-end pipeline that auto-generated business proposals and PowerPoint presentations from structured input data

Data Science Intern

Main Flow Services and Technologies Pvt. Ltd.

Feb. 2025 – Apr. 2025

Remote
